IN THE CLAIMS

1. (previously presented) An *Escherichia coli* bacterium attenuated by a non-reverting mutation in each of the *aroC* gene, the *ompF* gene and the *ompC* gene.

Claims 2-4 (canceled)

- 5. (previously presented) An *Escherichia coli* bacterium according to claim 1 which is a strain of enterotoxigenic *E. coli* (ETEC).
- 6. (previously presented) An *Escherichia coli* bacterium according to claim 1 which is further attenuated by a mutation in a fourth gene.
- 7. (currently amended) An *Escherichia coli* bacterium according to claim 6 wherein the fourth gene is <u>selected from the group consisting of</u> *aroA*, *aroD*, *aroS*, *pur*, *htrA*, *galE*, *cya*, *crp*, *phoP* <u>and</u> [[or]] *surA*.
- 8. (previously presented) An *Escherichia coli* bacterium according to claim 1, wherein the mutation in each gene is a defined mutation.
- 9. (previously presented) An *Escherichia coli* bacterium according to claim 1, wherein the mutation in each gene is deletion of the entire coding sequence.
- 10. (previously presented) An *Escherichia coli* bacterium according to claim 1 which has been genetically engineered to express a heterologous antigen.
- 11. (previously presented) An *Escherichia coli* bacterium according to claim 10, wherein expression of the antigen is driven by the *nlrB* promoter or the *htrA* promoter.

CHATFIELD - Appln. No. 09/646,925

12. (withdrawn) A vaccine comprising an *Escherichia coli* bacterium as defined in claim 1 and a pharmaceutically acceptable carrier or diluent.

Claims 13-15 (canceled)

- 16. (withdrawn) A method of raising an immune response in a mammalian host, which comprises administering to the host an *Escherichia coli* bacterium as defined in claim 1.
- 17. (previously presented) An *Escherichia coli* bacterium according to claim 1 which is PTL003 deposited on September 3, 2001 under accession number 01090302 with the European Collection of Cell Cultures (ECACC).
